

1. User Interface Specification

The FitBuddy interface is structured as a streamlined, single-screen dashboard designed for clarity and ease of use.

2. Layout Wireframe Components

- **Page Title & Favicon:** Configured using `st.set_page_config` with centered layout.
- **Header Banner:** Main heading with fitness emoji icon (🏋️) and subtitle descriptor.
- **Divider Line:** Clean thematic rule separating header and input form.
- **Left Column Form (Column 1):**
 - Age input (Range: 10 - 100, default: 25)
 - Weight input (Range: 30.0 - 200.0 kg, default: 65.0 kg)
 - Diet Preference dropdown [Vegetarian, Non-Vegetarian, Vegan]
- **Right Column Form (Column 2):**
 - Height input (Range: 100.0 - 250.0 cm, default: 170.0 cm)
 - Fitness Goal dropdown [Weight Loss, Muscle Gain, General Fitness]
- **Action Button:** High-visibility full-width button (`use_container_width=True`).
- **Results Cards:** Success alert notification banner followed by distinct Workout and Diet sections.
